New Bedford Textile Institute  
New Bedford, Mass.

*Adam Bayreuther*  
*Assistant Professor*

*The man who does more than he has to, clears the walls of this prison in a single bound. He does whatever he is doing not because he has to, but because he wants to. He is working of his own free will. Compulsion has been left behind.*

*Such a man is Adam Bayreuther. To him, as a manifestation of our gratitude and respect, we are proud to dedicate this humble work.*

*Class of 1955*

**GEORGE WALKER**  
**PRESIDENT — EMERITUS**

**JOHN E. FOSTER**  
**PRESIDENT**

**My blessing, not my doom.**

Henry Van Dyke once said in referring to his work: "This is my work; my blessing, not my doom."

I have long been aware that a good piece of work — once finished and done with — is a very satisfying thing. As engineers, chemists, designers or technologists, you will all find that some of the happiest days of your lives will be those on which you finish up a tough assignment and turn it over to the boss. All of us can do more and better work than we have to. Don't be satisfied with just doing the job — do a better job than you have to — do the best job you know how.

In so doing, I am sure you will enjoy many happy and prosperous years.

With best wishes,  
John E. Foster

## JEWELL DOES IT AGAIN

Mr. William Jewell, a "graduate" of a student, has done it again. In appreciation of his scholarly attributes, plus his magnetic personality, our editor of the class book has offered the presidency of the "Yawl Association of America." This association is composed of the Southern gentry who are well versed in handling "yawl" boats.

Chattanooga • Chicago • Portland, Ore. • San Francisco

IN CANADA: Chemical Developments of Canada Limited, Montreal

**VATROLITE®**—Use this powerful concentrated reducing agent for brighter vat dyed colors on cotton, linen and rayon . . . for faster, cleaner stripping results on silk, cotton and rayon.

**DISCOLITE®**—A concentrated reducing agent, highly stable at high temperatures, outstanding for discharge and vat color printing. Employed successfully wherever the reducing agent must dry into the fabric and retain its reducing power.

**PAROLITE®**—A dust-free white crystalline reducing agent. Soluble, colorless, excellent for stripping wool, wool rags, shabby acetate or Nylon fabric.

**NEOZYME®**—Concentrated low temperature desizing enzyme. Removes starch and gelatine. Excellent for eliminating thickeners from printed goods at low temperatures.

**NEOZYME® HT**—Concentrated high temperature desizing enzyme. Removes both starch and gelatine. Suitable for continuous pad-steam method. Remarkable stability at very high temperatures.

**NEOZYME® L & NEOZYME Special**  
— Liquid desizing enzymes in two degrees of concentration. Remarkable stability at very high temperatures.

**VELVO SOFTENER #25**—Economical creamy white paste softener derived from highly sulphonated tallows. Gives softness and body without stiffness or affecting whites.

**NEOPON®**—Surface-active compound with excellent detergent qualities with some wetting power. Not affected by hard water. Can be used in acid, neutral or alkaline baths.

**DISPERSALL®**—Effective retardant for dyeing vat colors, dispersing and leveling qualities, for dyeing naphthol and vat colors, useful in wool and acetate dyeing. Valuable auxiliary in stripping vat colors, naphthols.

**NEOWET®**—Permits effective wetting at all temperatures—particularly useful with enzymatic desizing agents. No reaction to soft or hard water. Not affected by either acid or alkali chemicals. Non-ionic.

**NEOQUEST®**—Removes the unwanted metallic ions from your processing liquors. Kier boiling assistant; dyeing assistant; does good even in the finishing mix. Cleaner whites; brighter colors.

**CASTROLITE®**—A highly sulphonated castor oil used as a staple penetrant for dyeing or bleaching in leading textile mills.

**VELVORAY®**—A blend of vegetable oils and selected fats for a superior, non-foaming finishing oil. High in combined  $\text{SO}_3$  and stability. Excellent for compressive shrinking, will not smoke off at high temperatures.

**Royce**

## FINE PERFORMANCE!

You can count on fine performance when you use Diastafor de-sizing agents the favorites for more than 45 years.

Diastafor de-sizing agents work well in a wide range of temperatures and pH. Give trouble free operation and a fine finish under many different conditions of use.

For information, write Standard Brands Incorporated, **Diastafor Department**, 595 Madison Avenue, New York 22, New York.

# DIASTAFOR

## REVERE TEXTILE PRINT ROLLS

A New Bedford Product Famous For a Hundred Years

"For more than a century the New Bedford Division of Revere Copper and Brass Incorporated has been making textile print rolls. As a result of this long experience the Revere organization is in a unique position to know and understand practical textile printing problems and how to meet them with rolls best adapted to give efficient, economical service.

"Revere specialists in this field are available to assist you in obtaining the type of rolls best adapted to serve your individual requirements."

**Revere Copper and Brass  
Incorporated**

FOUNDED BY PAUL REVERE—1801

24 North Front St., New Bedford, Mass.

*'ME NEXT!'*

**What a wonderful world of color  
was locked in that magic tube!**

Shimmering jewels, a brilliant mosaic—what pictures could be imagined in the tiny wonderland of a kaleidoscope! But careful! Don't jolt it! . . . Or you'll find that your wonderland has gone.

Every color that danced in that miracle tube has been captured by dye scientists for everything that people wear or people use. But these need not be kaleidoscopic colors that change—or unstable colors that fade; they can be colors that last for the entire lifetime of the material.

That's the kind of color fastness that can be yours when you turn to Du Pont for dyes. Our technical service experts will help you find the right dye for the end use—whatever it may be. E. I. du Pont de Nemours & Co. (Inc.), Dyes and Chemicals Division, Wilmington 98, Delaware.

Wherever you go . . .

let your STOWE-WOODWARD man help you

It's a better than even chance, that you who have special preparatory training will become the textile executives of tomorrow; and because of this, Stowe-Woodward has a genuine interest in you who are graduating.

Long before you reach the position that goes with that big mahogany desk and its inviting swivel chair, you will have learned a good deal about Stowe-Woodward Rubber Covered Rolls and their importance in the textile industry.

When you've arrived, you will also know that Stowe-Woodward is a pretty dependable source of help on any textile problem involving the use of rubber covered rolls. By then, we'll know you, too.

Right now, we'd like to extend congratulations for a good start and our best wishes for your success.
